Here we have the New York Express, which has April 2, 1858-31-tf worrried itself into an existence by shouting death to foreigners, changing its tune into a considerate cheer for England, and long life to the foreigners who have search ed and fired into our vessels, disgraced our citizens, and degraded our flag within sight of our own shores. If Sheriff of your county. the editor of the Albion were to fire a pistol into the office of the New York Express, we wonder if the editor of the latter would refrain from retaliating, in consideration of the Protestantism and Monarchism of the English editor. If he were guided by such ideas, we Patent Medicines, and the public generally, are apprised that from \$15 to \$30 dare be sworn there is not a Rip-Rap Lodge in the land that would not censure and scout him, and tar and feather the Albion man if they could.

The Express believes there is no nation in Europe for which we ought to have so much forbearance as Great Britain. It admires her constitutional monarchy, invokes her "free institutions," relies on her "Protestantism," kneels to her press, panders to her passions, beholds in her the bulwark of "civilization," and concludes some official blunders, or some official mistake.

Twenty years ago, in the Twenty-fifth Congress, and in the debate on the interference of Federal officers in elections, Mr. Buchanan gave his opinion of the British Government. Then, as now, persons were not wanting to hold up England as a model to America; and touching this point, and more especially some remarks by Mr. Rives, of Virginia, the present President then said:

"I agree with him, that we are indebted for several of our most valuable institutions to our British ancestors. We have derived from them the principles of liberty established and consecrecrated by Magna-Charta, the trial by jury, the petition of right, the habeas corpus act, and the revolution of 1688. And yet notwithstanding all this, I should be very unwilling to make the British Government a model for our legislation in republican America. Look at its effect in practice. Is it a Government which sheds its benign influence, like the dews of heaven, upon all its subjects? Or is it not a government, where the rights of the many are sacrificed to promote the interest of the few? No sales of wheat or oats since our a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that it is a perfect Restorative; but read the circular and you cannot

doubt ; read also the following : THE HAIR .- People have for centuries been afflicted with bald heads, and the only remedy, heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out which it restored in greater perfection than it ever had been before. It is also without doubt one of the best articles for keep-

moving dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to. It is the duty of every one to improve their personal appearance, though some may differ in regard to the ways of oing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desir-

tain such a consideration. COCHOCTON, Ohio, Nov. 17, 1856. O. J.
